TABLE OF CONTENTS

		PAGE
Interrelation of relative day length and temperature. Contributions from the Hull Botanical Laboratory 343	*Basil E. Gilbert*	1
Studies in the genus *Bidens*. VII. Contributions from the Hull Botanical Laboratory 344	*Earl Edward Sherff*	25
Origin of cleavage polyembryony in conifers	*John T. Buchholz*	55
The El Consuelo Cycadeoids	*G. R. Wieland*	72
Changes in nitrogen, potassium, and phosphorus content of wheat seedlings during germination and early stages	*Jehiel Davidson*	87
Evaporation in the *Scirpus validus* and *S. americanus* associations	*Frank C. Gates*	95
Inheritance of pubescence in *Pharbitis Nil*	*Yoshitaka Imai*	103
Studies in the genus *Xanthium*	*Jennie L. Symons*	121
Pollen development in the apple, with special reference to chromosome behavior	*J. S. Shoemaker*	148
Microchemical and morphological studies of effect of light on plants	*Norma E. Pfeiffer*	173
Growth of seedling in relation to composition of seed	*Mary E. Reid*	196
An organism of tomato mosaic	*Sophia H. Eckerson*	204
Attempt to cultivate an organism from tomato mosaic	*Helen A. Purdy*	210
Two new species of *Zamia*. Contributions from the Hull Botanical Laboratory 345	*Charles J. Chamberlain*	218
Revision of the genus *Isostigma* Less. Contributions from the Hull Botanical Laboratory 346	*Earl Edward Sherff*	241
Penetration phenomena and facultative parasitism in *Alternaria*, *Diplodia*, and other fungi	*Paul A. Young*	258
Development of embryo sac in *Grindelia squarrosa*	*Thomas D. Howe*	280
Effect of thiourea upon bud inhibition and apical dominance of potato	*F. E. Denny*	297

PAGE

Chemical composition of etiolated and green *Berberis* sprouts and their respective roots - - *E. R. Schulz* and *Noel F. Thompson* 312

Physiological investigation of black heart of potato tuber. Contributions from the Hull Botanical Laboratory **347** - - - - - - - - *Ward B. Davis* 323

Relation of hydrogen-ion concentration to growth of *Chlorella* and to the availability of iron - - *E. F. Hopkins* and *F. B. Wann* 353

Sporogenesis in *Reboulia hemisphaerica* - - - *Mary Constance Blair* 377

Hybrids in cycads. Contributions from the Hull Botanical Laboratory **348** - - - - - *Charles J. Chamberlain* 401

Culture studies in *Psilocybe coprophila* - - - *Kathryn A. Gilmore* 419

Osmotic pressure of cell sap and its possible relation to winter killing and leaf fall - - - - *Floyd W. Gail* 434

Structure and cultural history of a mycetozoan found in tobacco plants with mosaic-like symptoms - - - - - - - - - *Philip M. Jones* 446

Flora of an Illinois coal ball. Contributions from the Hull Botanical Laboratory **349** - - - - *Fredda Doris Reed* 460

BRIEFER ARTICLES—

Germination of seeds of plants native to Dutchess County, New York - - - - *Esther Mitchell* 108

The Auximone Question - - - - - - *H. S. Wolfe* 228

The strip method for serial celloidin sections - *Adriance S. Foster* 339

CURRENT LITERATURE - - - - - - - - 113, 232, 342, 470
